Contents

Volume 157 Number 1 January 2003

CONTENTS

Forum

Commentary

1 Rainforest trees and temperature change

Meetings

4 Plant development – lessons from animals

Books

6 Drying without dying

Review

Tansley reviews

9 Signals from the cuticle affect epidermal cell differentiation
S. M. Bird & J. E. Gray

Research

Rapid reports

25 Variation in arsenic accumulation – hyperaccumulation in ferns and their allies
A. A. Meharg

Full papers

33 Mechanisms of arsenate tolerance in *Cytisus striatus*
P. M. Bleeker, H. Schat, R. Vooijs, J. A. C. Verkleij & W. H. O. Ernst

39 Arsenite transport into paddy rice (*Oryza sativa*) roots
A. A. Meharg & L. Jardine

45 Variation in root-zone CO_2 concentration modifies isotopic fractionation of carbon and nitrogen in tomato seedlings
A. Viktor & M. D. Cramer

55 Do temperate rainforest trees have a greater ability to acclimate to changing temperatures than tropical rainforest trees?
S. C. Cunningham & J. Read
• **Commentary p. 1**

65 Elevated pCO_2 affects N-metabolism of young poplar plants (*Populus tremula* × *P. alba*) differently at deficient and sufficient N-supply
J. Kruse, I. Hetzger, C. Mai, A. Polle & H. Rennenberg

83 Dissection of the effects of the aphid *Acyrthosiphon pisum* feeding on assimilate partitioning in *Medicago sativa*
C. Girousse, M. Faucher, C. Kleinpeter & J.-L. Bonnemain

93 Differential responses to Na^+/K^+ and Ca^{2+}/Mg^{2+} in two edaphic races of the *Lasthenia californica* (Asteraceae) complex: A case for parallel evolution of physiological traits
N. Rajakaruna, M. Y. Siddiqi, J. Whitton, B. A. Bohm & A. D. M. Glass

105 Flower architecture and sex determination: how does *Atriplex halimus* play with floral morphogenesis and sex genes?
A. Talamali, M. Bajji, A. L. Thomas, J.-M. Kinet & P. Dutuit

115 Nitrogen availability and colonization by mycorrhizal fungi correlate with nitrogen isotope patterns in plants
E A. Hobbie & J. V. Colpaert

127 Growth and phosphorus nutrition of a *Paris*-type arbuscular mycorrhizal symbiosis
T. R. Cavagnaro, F. A. Smith, S. M. Ayling & S. E. Smith

135 Antioxidant activities in mycorrhizal soybean plants under drought stress and their possible relationship to the process of nodule senescence
R. Porcel, J. M. Barea & J. M. Ruiz-Lozano

145 Influence of nonnative earthworms on mycorrhizal colonization of sugar maple (*Acer saccharum*)
B. Lawrence, M. C. Fisk, T. J. Fahey & E. R. Suárez

Methods

155 Optimizing minirhizotron sample frequency for an evergreen and deciduous tree species
D. T. Tingey, D. L. Phillips & M. G. Johnson

163 Instructions to Authors

Volume 157 Number 2 February 2003

CONTENTS

Forum

Commentary

167 The many faces of plant carbon relations: forging an ecophysiological identity in the age of human influence

Meetings

170 Resource pulses in arid environments – patterns of rain, patterns of life

Review

Tansley reviews

175 Plant growth and competition at elevated CO_2: on winners, losers and functional groups
H. Poorter & M.-L. Navas

199 Ecology and evolution of light-dependent and light-independent phytogenic volatile organic carbon
M. Lerdau & D. Gray

213 Source–sink balance and carbon allocation below ground in plants exposed to ozone
C. P. Andersen

Research

229 Density-dependent responses of reproductive allocation to elevated atmospheric CO_2 in *Phytolacca americana*
J.-S. He & F. A. Bazzaz

241 Plant water relations influence carbon gain in a grass occurring along sharp gradients of soil temperature
M. J. Germino & J. M. Wraith

251 Plant stored reserves do not drive resprouting of the lignotuberous shrub *Erica australis*
A. Cruz, B. Pérez & J. M. Moreno

263 Light interception and dry matter conversion efficiency of miscanthus genotypes estimated from spectral reflectance measurements
U. Jørgensen, J. Mortensen & C. Ohlsson

271 Tolerances and acclimation to low and high temperatures for cladodes, fruits and roots of a widely cultivated cactus, *Opuntia ficus-indica*
P. S. Nobel & E. De la Barrera

281 Plant responses to simultaneous stress of waterlogging and shade: amplified or hierarchical effects?
J. P. M. Lenssen, F. B. J. Menting & W. H. Van der Putten

291 A phosphate transporter from *Medicago truncatula* is expressed in the photosynthetic tissues of the plant and located in the chloroplast envelope
L. Zhao, W. K. Versaw, J. Liu & M. J. Harrison

303 Plant nitrogen capture from organic matter as affected by spatial dispersion, interspecific competition and mycorrhizal colonization
A. Hodge

315 Plant roots release phospholipid surfactants that modify the physical and chemical properties of soil
D. B. Read, A. G. Bengough, P. J. Gregory, J. W. Crawford, D. Robinson, C. M. Scrimgeour, I. M. Young, K. Zhang & X. Zhang

327 Legumes native to longleaf pine savannas exhibit capacity for high N_2-fixation rates and negligible impacts due to timing of fire
J. K. Hiers, R. J. Mitchell, L. R. Boring, J. J. Hendricks & R. Wyatt

339 N deposition affects N availability in interstitial water, growth of *Sphagnum* and invasion of vascular plants in bog vegetation
J. Limpens, F. Berendse & H. Klees

349 Chloroplast genetic diversity and biogeography in the serpentine endemic Ni-hyperaccumulator *Alyssum bertolonii*
A. Mengoni, C. Gonnelli, E. Brocchini, F. Galardi, S. Pucci, R. Gabbrielli & M. Bazzicalupo

357 Flower dimorphism and the maintenance of andromonoecy in *Sagittaria guyanensis* ssp. *lappula* (Alismataceae)
S.-Q. Huang

365 Late Quaternary dynamics of tundra and forest vegetation in the southern Niagara Escarpment, Canada
Z. Yu

Volume 157 Number 3 March 2003

CONTENTS

Forum

Commentary

391 The root–microbe–soil interface: new tools for sustainable plant production

Letters

394 Towards a physically based model of CO_2-induced stomatal frequency response

Review

Tansley reviews

399 Ectomycorrhizal fungal communities in young forest stands regenerating after clearcut logging
M. D. Jones, D. M. Durall & J. W. G. Cairney

423 Phosphorus acquisition and use: critical adaptations by plants for securing a nonrenewable resource
C. P. Vance, C. Uhde-Stone & D. L. Allan

449 Phytochrome-hormonal signalling networks
K. J. Halliday & C. Fankhauser

Research reviews

465 Soil community feedback and the coexistence of competitors: conceptual frameworks and empirical tests
J. D. Bever

475 Mycorrhizas and nutrient cycling in ecosystems – a journey towards relevance?
D. J. Read & J. Perez-Moreno

493 *Fusarium oxysporum* and its biocontrol
D. Fravel, C. Olivain & C. Alabouvette

503 Phenazines and their role in biocontrol by *Pseudomonas* bacteria
T. F. C. Chin-A-Woeng, G. V. Bloemberg & B. J. J. Lugtenberg

525 Horizontal gene transfer in the phytosphere
J. D. van Elsas, S. Turner & M. J. Bailey

Research

539 Arbuscular mycorrhizal fungi differentially affect expression of genes coding for sucrose synthases in maize roots
S. Ravnskov, Y. Wu & J. H. Graham

547 Identification of laccase-like genes in ectomycorrhizal basidiomycetes and transcriptional regulation by nitrogen in *Piloderma byssinum*
D. M. Chen, B. A. Bastias, A. F. S. Taylor & J. W. G. Cairney

555 Targeted proteomics to identify cadmium-induced protein modifications in *Glomus mosseae*-inoculated pea roots
O. Repetto, G. Bestel-Corre, E. Dumas-Gaudot, G. Berta, V. Gianinazzi-Pearson & S. Gianinazzi

569 Different arbuscular mycorrhizal fungi alter coexistence and resource distribution between co-occurring plant
M. G. A. van der Heijden, A. Wiemken & I. R. Sanders

579 Elevated CO_2 and plant species richness impact arbuscular mycorrhizal fungal spore communities
J. Wolf, N. C. Johnson, D. L. Rowland & P. B. Reich

589 Carbon partitioning in a split-root system of arbuscular mycorrhizal plants is fungal and plant species dependent
S. Lerat, L. Lapointe, S. Gutjahr, Y. Piché & H. Vierheilig

597 Plant influence on rhizosphere hydraulic properties: direct measurements using a miniaturized infiltrometer
P. D. Hallett, D. C. Gordon & A. G. Bengough

605 Distribution of above-ground and below-ground carbohydrate reserves in adult trees of two contrasting broad-leaved species (*Quercus petraea* and *Fagus sylvatica*)
C. Barbaroux, N. Bréda & E. Dufrêne

617 Variation in growth rate and ecophysiology among 34 grassland and savanna species under contrasting N supply: a test of functional group differences
P. B. Reich, C. Buschena, M. G. Tjoelker, K. Wrage, J. Knops, D. Tilman & J. L. Machado

633 Genetic structure and mating systems of metallicolous and nonmetallicolous populations of *Thlaspi caerulescens*
S. Dubois, P.-O. Cheptou, C. Petit, P. Meerts, M. Poncelet, X. Vekemans, C. Lefèbvre & J. Escarré

643 Zinc and cadmium accumulation in controlled crosses between metallicolous and nonmetallicolous populations of *Thlaspi caerulescens* (Brassicaceae)
H. Frérot, C. Petit, C. Lefèbvre, W. Gruber, C. Collin & J. Escarré

649 Metabolite gradients and carbohydrate translocation in rosette leaves of CAM and C3 bromeliads
M. Popp, H.-P. Janett, U. Lüttge & E. Medina

657 Gene flow from cultivated rice to the wild species *Oryza rufipogon* under experimental field conditions
Z. P. Song, B.-R. Lu, Y. G. Zhu & J. K. Chen

667 Genetic differentiation over a spatial environmental gradient in wild *Rubus ideaus* populations
J. Graham, B. Marshall & G. R. Squire

677 Relationship between genetic structure and seed and pollen dispersal in the endangered orchid *Spiranthes spiralis*
N. Machon, P. Bardin, S. J. Mazer, J. Moret, B. Godelle & F. Austerlitz
